Log in: Partner Code

When you first open the app, it will prompt you to put in a **partner code**. This code is unique and assigned to your organization.

For today's demo our code will be:

XXXXXX

You will receive a different partner code for future canvassing.

When you've arrived at this screen, please give us a 

REGISTER TO VOTE WI

You're signing up to canvass for **Staging!**

Please provide the information below.

FIRST NAME*

Jane

LAST NAME*

Doe

EMAIL ADDRESS*

jane@email.com

PASSWORD*

LET'S GET STARTED

Powered by SeeBotRun [Privacy Policy](#) [Terms & Conditions](#)

Create a Canvasser Account

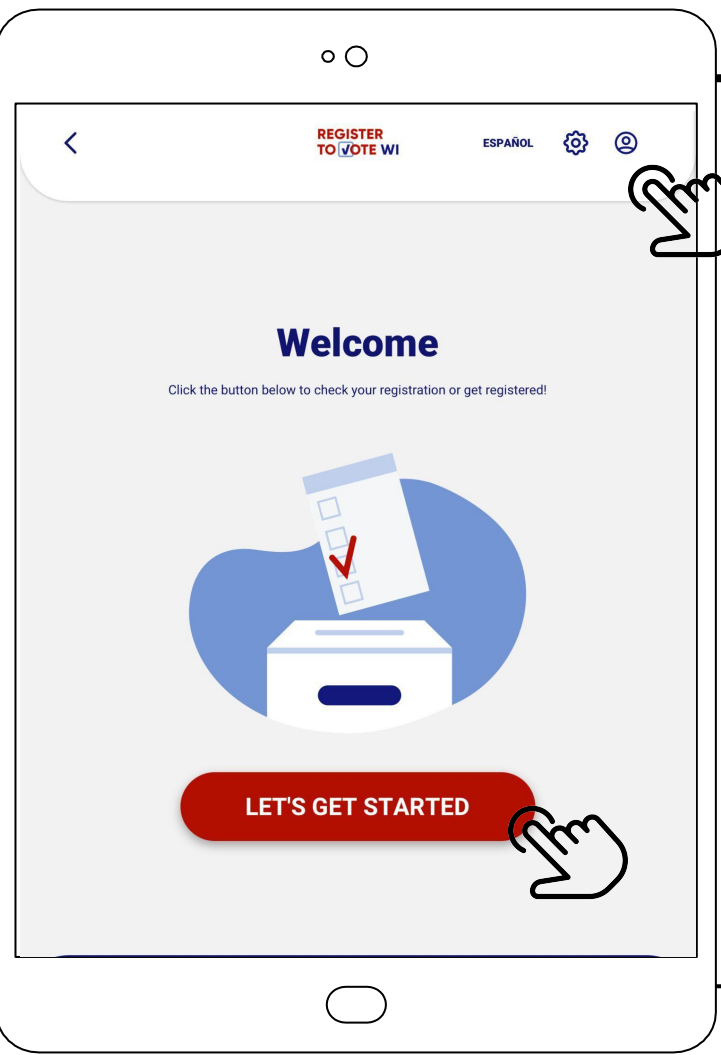

The first time you log in, you'll need to sign up to be a canvasser using the tablet app.

Canvassers will do this **once** when first logging in.

Remember the email address and password in order to log back in as a canvasser next shift.

Select "Let's Get Started."

When you've arrived at this screen, please give us a 

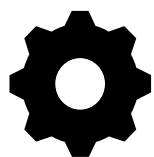

Basic Navigations

ESPAÑOL

Toggle the app into **Spanish** using the ESPAÑOL button.

Click the person logo to pop out User Details menu from the right hand side showing all of your **shift information** so far.

This gear icon will display the **knowledge base** - a library of support articles and frequently asked questions provided by the app developers.

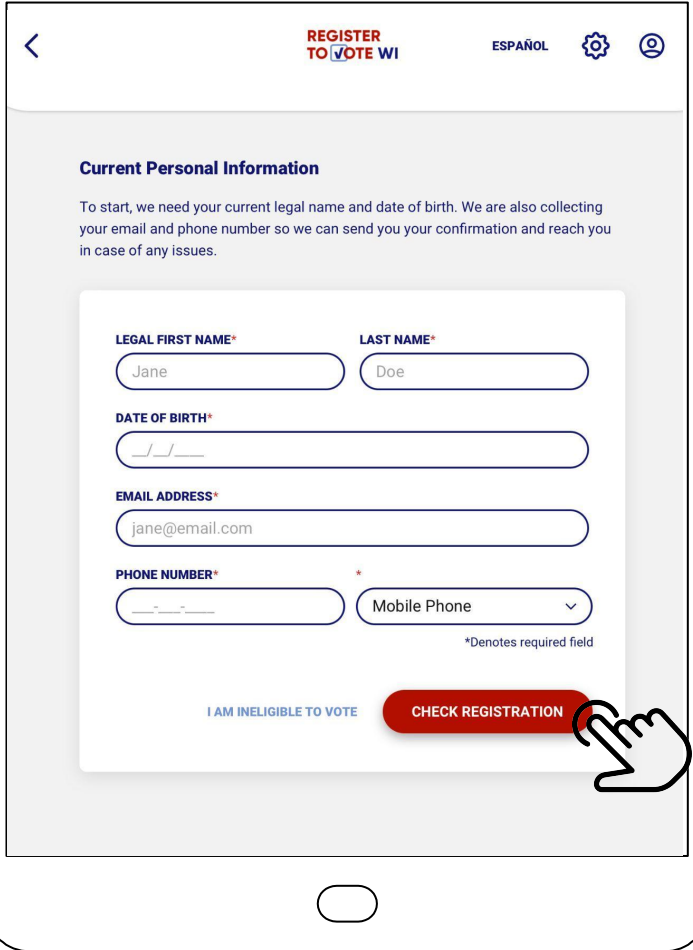

Additionally, there is a button called **"Got to Go"** - this option purges and terminates the current application.

Check Registration Status

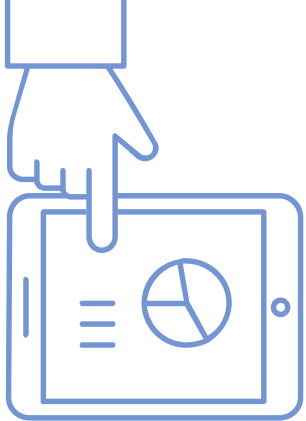

The first screen of the voter registration application asks for the applicant to input their Name, date of birth, Email, and Phone Number.

This screen checks the WI Voter Rolls and tells the applicant if they are registered and where.

Try it out now!

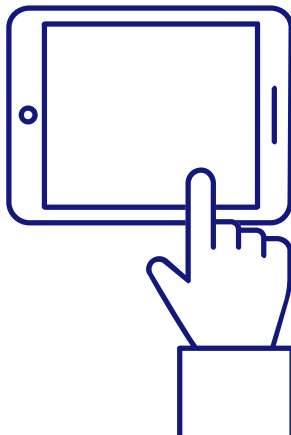

The image shows a smartphone screen displaying the 'REGISTER TO VOTE WI' application. At the top, there is a navigation bar with a back arrow, the logo, a language selector for 'ESPAÑOL', and settings and profile icons. The main heading is 'Current Personal Information'. Below this, a paragraph explains that the app needs the user's legal name, date of birth, email, and phone number for confirmation and contact. The form contains four input fields: 'LEGAL FIRST NAME*' (with 'Jane' entered), 'LAST NAME*' (with 'Doe' entered), 'DATE OF BIRTH*' (with a date picker), and 'EMAIL ADDRESS*' (with 'jane@email.com' entered). The 'PHONE NUMBER*' field is split into a number input and a dropdown menu currently set to 'Mobile Phone'. A red button labeled 'CHECK REGISTRATION' is being clicked by a hand icon, while a blue link 'I AM INELIGIBLE TO VOTE' is visible to its left. A small asterisk note at the bottom of the form states '*Denotes required field'.

Activity: Test the App

20 minutes

Scenarios

1. Register someone who has an ID
2. Register someone without an ID
3. Start an application, but pretend you have to go and abandon the form during completion

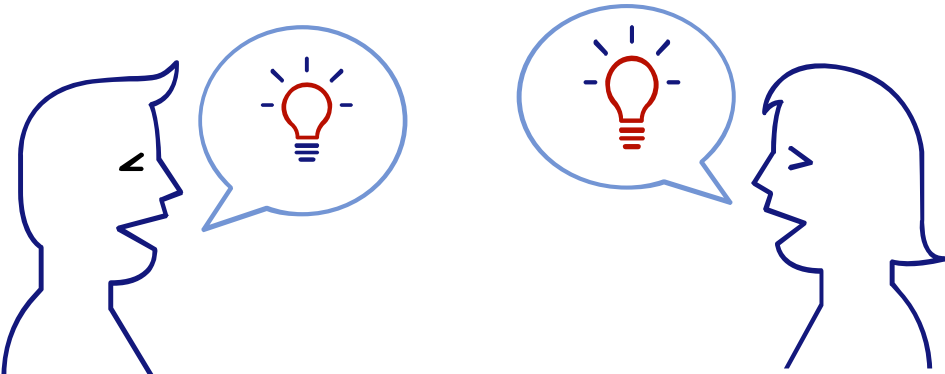

Submit an application for any or all of the scenarios above. This is a free play time - feel free to make up your own scene and test it.

Share questions or observations out loud.

**What Questions do you
have?**

Activity: Build Your Rap

15 minutes

Scenarios

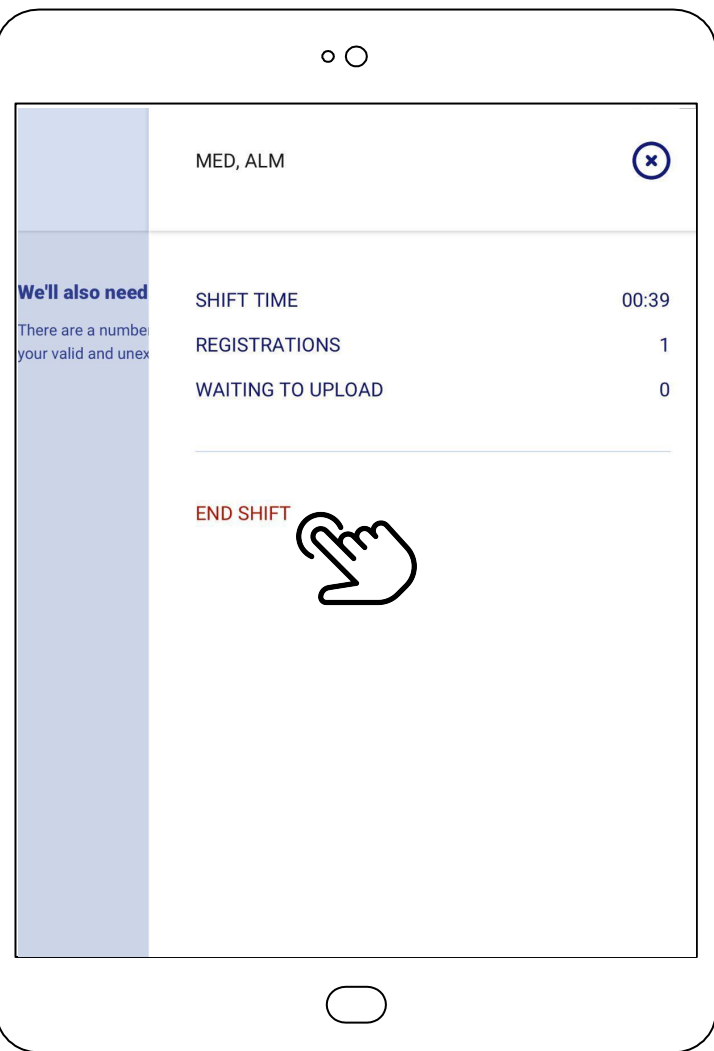

1. Register someone who has an ID
2. Register someone without an ID
3. Start an application, but pretend you have to go and abandon the form during completion

Pairing in breakout rooms, practice guiding the other person through filling out an application. Use any of the scenarios we laid out.

Did the registration go through?

On the tablet app click the person icon in the top right corner to pop out a shift information screen.

- **Shift Time** - the time elapsed between log in and log out
- **Registrations** - Total number of people you have registered
- **Waiting to Upload** - Forms submitted in mail-in-mode or while disconnected from wifi

About the Training

This content is intended for an audience of canvassers and canvass managers - highlighting some of the legal best practices and technical barriers to registering to vote using a custom made application. It's largely driven by open discussion and assumes the audience has some familiarity with site-based voter registration canvassing.

This presentation was authored by Amber Medina using the brand identity kit provided for the application. It is part of a series of trainings on Wisconsin voter registration developed in partnership with 3 other staff.
